---

*'Les Fous' means 'The Crazy Ones' in French. They were born from a crazy idea that turned into four artistic and versatile hooks. Made from the finest walnut these hooks prove that, in the right hands, crazy can often translate into beautiful.*

*Every package consists of 4 wall hooks with their own individual expression. Side by side they complement each other. By themselves they look insanely beautiful. Les Fous hooks can be used however you want. There are no rules. Let your imagination run wild.*

## WHAT DREAMS ARE MADE OF

BY THORNAM is a Danish design company. We make bedroom furniture and accessories that dreams are made of. Our mission is to make designs that soothe both the body and mind.

We sell our designs to retailers around the world and work closely with a wide range of professionals on hotel and private estate projects. Typically, we are part of the initial development process and help our clients turn dreams into reality.

We believe the bedroom is the most important room in a hotel or in a private home. It is here people spend the most of their precious time. It is here they recharge their 'human' batteries and dream big.

Along with our original designs we also design and produce various furniture from scratch. We can customize according to specific needs and often some of the products we make are a co-production between us and the professional/architect/interior decorator.

We work with various factories worldwide and thrive to inspire you with ideas to make unique and dreamy bedrooms.
